To the Honorable City Council,
Seattle,

The attention of The North End Progressive Club has been called to the little colony of poverty stricken people who have built shacks on the sand at Inter Bay waterfront. It was pointed-out that an unsanitary condition might exist there and that these unsightly shacks annoyed the people who had property in the vicinity.

We recognize the fact that these people have drifted in from other parts of the country - that no funds are available for other housing that our Governor has vetoed the bill which might have enabled them to a chance to help themselves. That it is unlawful to shoot or drown them. But - we want you to do something about it.

Respectfully,
May Gamble Young
130 East 57th St
