Re: 2021OPA-0144 Partial Certification

CERTIFICATION:

OIG reviewed the investigation for Case Number 2021OPA-0144 and directed additional investigation (see memo dated September 3, 2021 uploaded to IAPro). OIG understands that due to the pending 180-day deadline, OPA does not have sufficient time to conduct additional investigation or to otherwise address the deficiencies identified by OIG. Therefore, the investigation is certified as timely and objective, but not thorough.

Respectfully,

Lynn Erickson
