

2018 PAVING PROJECTS SOUTHEAST SEATTLE

October 2016

PROJECT DESCRIPTION

The Seattle Department of Transportation (SDOT) is planning to repave several arterial streets in your neighborhood in 2018 with funding provided by the voter-approved Levy to Move Seattle. We have just begun the design for six large paving projects scheduled for construction in 2018.

Paving provides an opportunity to implement other changes on these streets to improve safety and mobility for people and goods in a growing Seattle.

PROPOSED PROJECT LOCATIONS

- **S Columbian Way/S Alaska St** - Beacon Ave S to MLK Jr Way S
- **Swift Ave S/S Myrtle St/S Othello St** - 15th Ave S to MLK Jr Way S
- **Wilson Ave S** - Seward Park Ave S to S Dawson St

PROJECT BACKGROUND

Arterial streets are primary routes for moving people and goods through the city, connecting neighborhoods and business districts to one another and to the regional transportation network. Each year, Seattle repaves arterial streets in poor condition to make them safer and more comfortable and to extend their useful life.

Paving projects are prioritized based on pavement condition, traffic volume, geographic equity throughout the city, cost, and opportunities for grants or coordination with other projects in the area.

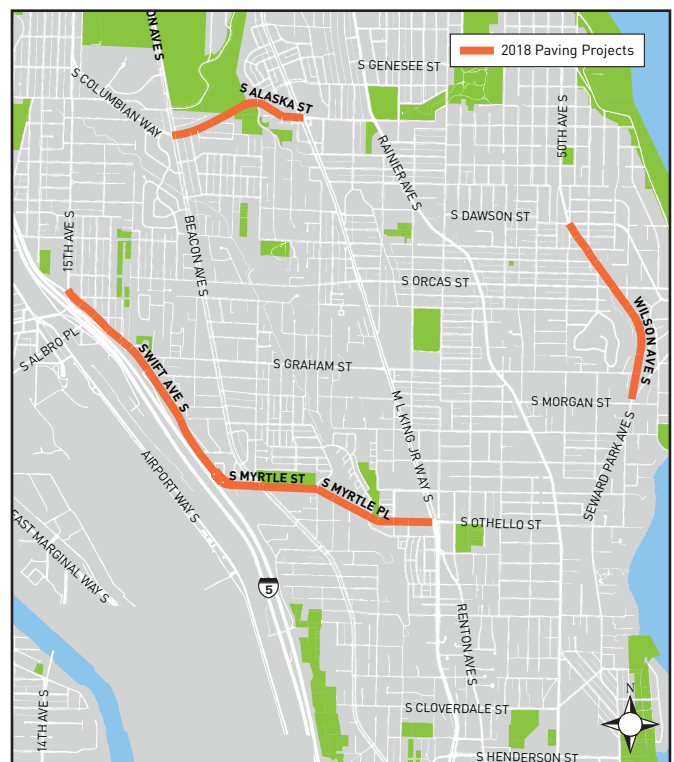

GET INVOLVED

We want to hear from you – the people who use these streets every day:

- What you like and what you would change about how the streets operate
- Business loading and access needs
- Locations where there are missing/broken/worn infrastructure other than paving
- Opportunities for landscaping, walking and biking improvements

By talking with community members and gathering feedback during this early planning phase, we aim to create a project that addresses more comprehensive needs beyond paving and brings us closer to meeting our mobility plans for Seattle.
