

Sidewalk construction begins as soon as July 8

OVERVIEW

As soon as Monday, July 8 crews will begin building new sidewalk along the south side of NE 110th St between NE 40th St and Sand Point Way. This work is the first step in completing a series of sidewalks in north Seattle. See reverse side for more information on sidewalk locations. As part of this project, we will also be installing natural drainage systems (NDS) on 12th Ave NE to reduce stormwater runoff. Additional information on NDS will be sent to residents on 12th Ave NE.

SCHEDULE AND IMPACTS

Construction begins on the north side of 110th between 40th and Sand Point Way and will occur Monday to Friday, 7 AM to 5 PM. This work is the first step in completing a series of 8 sidewalks in north Seattle. Construction for the entire project is expected to last through the end of the year and is weather dependent. Each street will take approximately 4-5 weeks to complete. Streets in construction will be allowed local access only and intersections at the end of each block may be closed with detours provided. Parking will be temporarily restricted, and crews will place "No Parking" signs 72 hours in advance. Access to businesses and homes will be maintained at all times during this work, but driveway access will be temporarily restricted; we'll notify you individually ahead of time of potential impacts.

To stay up to date with project progress, please sign up for our listserv at www.seattle.gov/transportation/nseattlesidewalks

Thank you for your patience during construction!

WHAT TO EXPECT DURING CONSTRUCTION?

- Sidewalk and curb ramp construction
- Typical work hours between 7 AM and 5 PM Monday through Friday
- Local access only on your street
- Detours for intersection closures
- Temporary parking restrictions
- Temporary pedestrian and bike detours around the work zone and staging area
- Temporary driveway restrictions. We'll notify you individually if you'll be impacted.
- Access to businesses and homes will be maintained at all times
- Typical construction noise, dust, and vibrations
