

CURB RAMP & SIDEWALK IMPROVEMENTS UPDATE

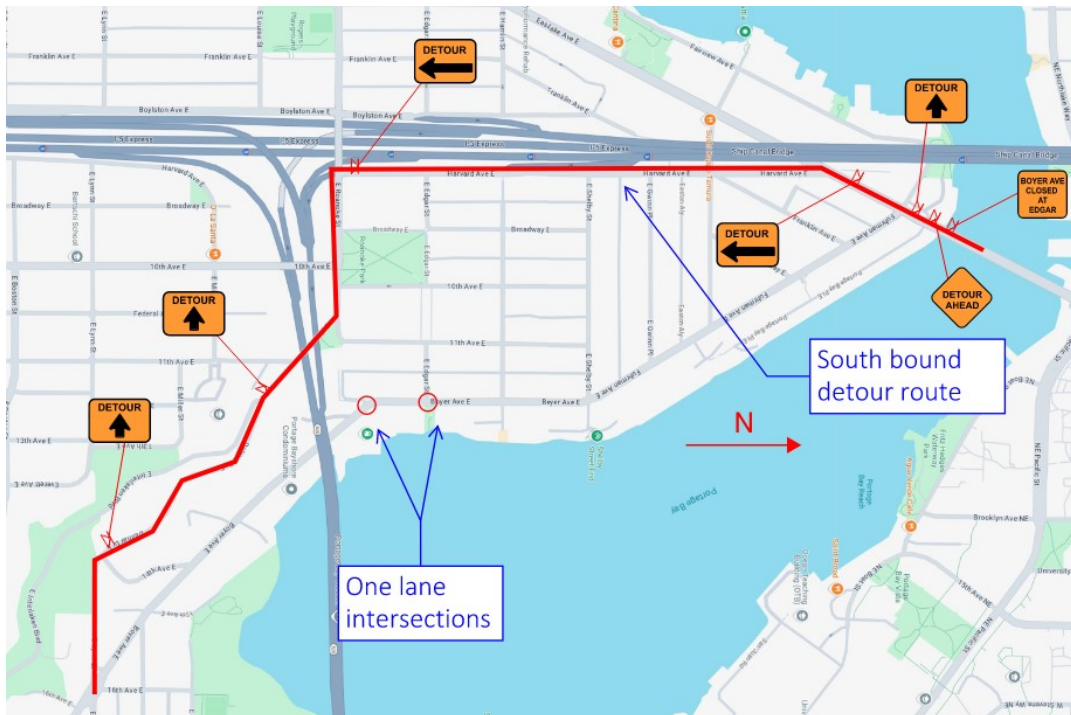

NEW CONSTRUCTION IMPACTS

As part of this work, our Boyer and Delmar Curb Ramp and Sidewalk Improvement project will continue construction for the next several weeks.

Beginning in the next few days and lasting 2-3 days, Boyer Ave East will have limited access during work hours and will be restricted to one lane headed southbound on certain evenings. On those evenings, through traffic will be Local Access Only.

There will be a detour for the northbound lane of Boyer Ave East beginning at the four-way stop at the intersection of Boyer Ave E and E Lynn St.

Please be on the lookout for the messaging board at Boyer Ave E and E Lynn St for dates and adjust your travel plans to accommodate these temporary changes.
