

NE 130th St & NE 125th St Mobility and Safety Project

2024

Walking, biking, and transit improvements coming to your neighborhood!

We have an opportunity to improve connections between Haller Lake and Lake City as we get ready for the new light rail station at NE 130th St near I-5. We're planning improvements on NE 130th St, Roosevelt Way NE, and NE 125th St that will improve safety and accessibility for everyone.

We're proposing the following changes:

- Bike lanes protected with concrete curbs to make biking safer
- New and upgraded bus stops, bus only lanes, and signal changes to give buses a head start
- Safer street and intersection designs to prevent serious and fatal crashes
- Safer street crossings with new signals for people walking, biking, and rolling, and signal upgrades that let people walking or rolling go before cars and trucks
- Sidewalk repairs and new curb ramps in some places
- Right turns only from 3rd Ave NE to NE 130th St to make the intersection safer and reduce conflicts between people driving and people walking, biking, and rolling
- Adding a roundabout to improve safety and traffic flow at Roosevelt Way NE and 10th Ave NE

Scan the QR code to visit our website. You can learn about the project and sign up for project updates.

Get involved!

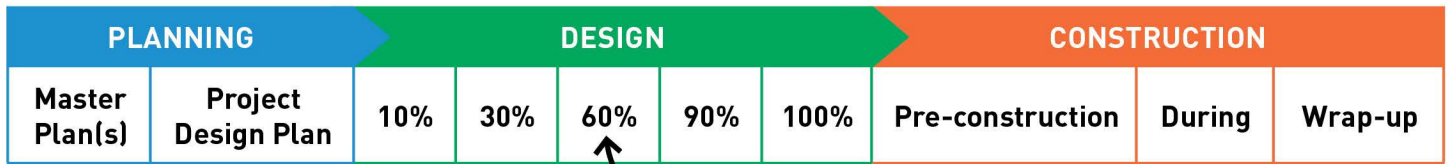

- Join a neighborhood pop-up event
- Join a community meeting
- Meet our team during a neighborhood visit

Project Timeline

we are here

- **Planning (2023):** We designed safety and accessibility improvements with input from the community.
- **Design (2023-2025):** Create and share design proposals for community feedback.
- **Construction (2025-2026*):** We will share construction schedules, activities, and impacts
- **Light rail service begins (2026):** Visit Sound Transit’s website for current information on the NE 130th St Infill Station.

*Construction timelines can change. They depend on when workers and materials are ready.
