

# NOTICE OF UPCOMING WORK

April 25, 2022

## PROJECT DESCRIPTION: INSTALL UNDERGROUND VAULT AND WATER MAIN VALVES

Seattle Public Utilities (SPU) will soon begin construction to repair portions of the large 430 Pipeline that runs four miles from Volunteer Park to Maple Leaf Reservoir in Seattle. The pipeline was built in the early 1900s and is part of the region's drinking water system.

Construction associated with the 430 Pipeline project includes installing a new underground vault and water main valves in your neighborhood.

### LOCATION:

The 430 Pipeline project is a multisite project. Construction at this site will take place on **Federal Ave E, between E. Boston St and E. Newton St**, and occur in the sidewalk, planting strip, and street.

### SCHEDULE:

**Work is scheduled to begin as early as May** depending on the availability of construction materials, including concrete, and is expected to last for **6 to 8 weeks**. Crews will typically work weekdays during daytime hours. Upon completion of the work, the street will be temporary restored and final street restoration is expected to follow later in 2022.

### WHAT TO EXPECT DURING CONSTRUCTION:

- Pavement excavation, construction noise, dust, dirt, and vibrations.
- Temporary road closures and detours on **Federal Ave E, between E. Boston St and E. Newton St**,
  - Crews will work to provide local access during working hours, but there may be intermittent, brief road closures to accommodate construction activities. Please allow for extra time when traveling to and from your home.

Public  
Utilities**

## **NOTICE OF UPCOMING WORK**

- Residents will continue to have pedestrian access to their homes throughout construction. During working hours, crews will escort residents.
- Crews will reopen the road for local access on nights and weekends.
- Please follow all on-site signage and crew instructions.
- On-street parking near the work area will be prohibited and driveways may be blocked.
  - If you are in the work area and anticipate needing your car, please relocate your car outside of the work area and avoid parking in areas with no-park signs.
- Slowed vehicle traffic and staging of equipment and construction vehicles near the project area.
- Some residents will experience temporary water outages. Impacted customers will be notified at least 5 days in advance of the planned water outage.
