

Utility Latecomer Agreements allow a property owner who is required by Seattle Municipal Code to construct and pay for water, drainage, or sewer facilities as a condition of their development, to recover a portion of the costs of those improvements from property owners of designated benefitting parcels that develop and connect to these facilities in the future.

SUBMIT YOUR APPLICATION – Use one of the following options:

- Email signed pdf copy: SPUWaterAvailability@seattle.gov
- Hand Deliver: Seattle Municipal Tower – 700 Fifth Ave, Suite 2748, Seattle, WA 98101
- Mail: Development Services Office, Seattle Public Utilities, PO Box 34018, Seattle, WA 98124

PAY YOUR INVOICE

After you submit your application, and if it is deemed complete and eligible for a utility Latecomer Agreement, you will receive an invoice for \$1,090 (non-refundable).

In order for the Latecomer Agreement application to be valid, you must submit this application and pay the invoice **prior** to approval of infrastructure design or Water System Valve/Hydrant Contract execution.

COMPLETE YOUR APPLICATION

After the invoice payment has been processed, the following is required to complete the initial application process.

1. **Cost estimate:** Provide an itemized estimate of the total projected cost of the system improvements using [SPU's Cost Estimating Workbook](#).
2. **Benefitting parcels:** Provide a complete list of all parcels within the assessment reimbursement area using [SPU's Exhibit B – Assessment Reimbursement Area Parcel Roll](#). These are all the parcels adjacent to the new or reclassified main you are responsible for.
3. **Recent vesting deeds:** Provide copies of the most recent vesting deed of record for all benefitting parcels.

PROJECT INFORMATION

Project Address

King County Parcel Number

Project is in the City of Seattle

Project is outside the City of Seattle

SDCI Building Permit Number

Building Permit Number

SDOT Street Improvement Permit Number,
if applicable

Utility Permit Number, if applicable

Description of Project:

Description of Utility System Improvement:

The Property Owner is required to submit final construction costs to SPU within 120 days of completion of the facility. After SPU approves the final costs, SPU will record the latecomer agreement and an encumbrance on each benefitting parcel with the King County Recorder’s Office. After recording, benefitting parcel owners who connect to or use water or sewer facilities constructed or improved under the terms of the latecomer agreement will be required to pay the applicable latecomer fee to SPU, and SPU will distribute such fees to the Property Owner.
